DHRUV OF BCM SCHOOL SECURES AIR 1 IN NFLAT, FELICITATED BY NCFE MUMBAI

BCM School beams with pride as Dhruv, a bright star of Grade 6, has brought laurels to the institution by securing All India Rank 1 in the prestigious NFlat Examination. In recognition of this exceptional feat, Dhruv was felicitated by the National Centre for Financial Education (NCFE) in a special ceremony held in Mumbai.

This outstanding achievement is not only a testament to Dhruv's hard work, discipline, and intellectual brilliance but also a reflection of the strong academic foundation and nurturing environment provided at BCM School.

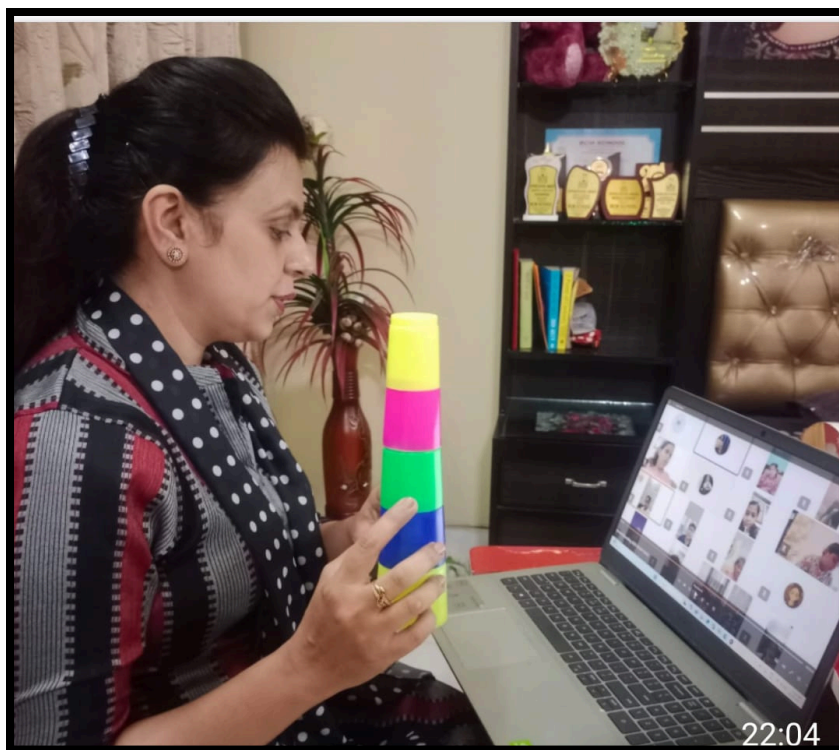

The felicitation ceremony celebrated Dhruv's perseverance and excellence, acknowledging him as a role model for young learners across the nation. His remarkable success has brought immense pride to the school, motivating his peers to aim higher and dream bigger.

The BCM School family wholeheartedly congratulates Dhruv on achieving AIR 1 and extends best wishes for his continued journey of excellence and success.

LEARNING BEYOND CLASSROOMS: FOUNDATIONAL STAGE STUDENTS EXPLORE, ENGAGE, AND EXCEL

BCM School's Foundational Stage continues to prove that learning knows no boundaries. Even in the online mode, the youngest learners are joyfully discovering concepts through innovative, activity-based experiences carefully designed by their teachers.

Nursery students recently participated in a "Sorting of Pulses Activity", where they meticulously separated kidney beans and chickpeas into designated bowls. This simple yet meaningful task helped them develop classification, discrimination, and cognitive organization skills while enhancing fine motor coordination—all in a playful, hands-on way.

Equally engaging was the "Exploring Subtraction with Real Objects" activity for UKG students. Using fingers and everyday items like brushes, Dixie cups, and plates, children actively understood the concept of "taking away." This practical approach transformed subtraction into an enjoyable and relatable experience, strengthening number sense and problem-solving skills.

These activities are a shining example of how the youngest BCMites learn beautifully, even in the virtual space. Much of this credit goes to the dedicated kindergarten teachers, who consistently introduce creative methodologies, ensuring that children feel connected, involved, and inspired. Their unwavering commitment truly promotes learning beyond classrooms, laying a strong foundation for the future.
