WEAVING KNOWLEDGE: BCMITES DISCOVER INDUSTRIAL EXCELLENCE AT AARTI INTERNATIONAL

The Entrepreneurship Club of BCM School organized an industrial visit to Aarti International Ltd., one of the leading textile industries in Ludhiana. A total of 43 students participated in the visit, accompanied by Ms. Davinder Kaur, Ms. Kanchan(faculty members).

The students were given an insightful tour of the manufacturing unit, where they were introduced to the yarn-making process and various stages of textile production. They observed how raw material is transformed into finished yarn with the help of advanced technology and large-scale machinery.

During the interaction, the company officials also explained the scale of business operations, highlighting production capacity, workforce strength, and export networks. The students gained practical exposure to industrial working, management practices, and entrepreneurial opportunities in the textile sector.

The visit proved to be a valuable learning experience, enriching students with real-time knowledge of manufacturing processes, business operations, and the significance of innovation in entrepreneurship.

YOUNG INNOVATORS AT WORK

“Small Hands, Big Ideas: Class V Builds Simple Machines in the Science Lab”

Students of Class V participated in an engaging hands-on learning session in the Science Lab. Working in small groups, they used materials such as cardboard, spoons, rubber bands, ice cream sticks, thread, and bottle caps to create working models of different simple machines, including levers, pulleys, and inclined planes.

The atmosphere in the lab was charged with energy as students brainstormed, experimented, and problem-solved together. Every challenge they faced—whether balancing weights on a lever, aligning the pulley to lift objects, or adjusting the slope of an inclined plane—helped them think critically and apply scientific knowledge in a practical manner. The session also encouraged peer learning, as children shared their observations and appreciated one another's efforts.

This interactive approach to learning brought textbook concepts to life. Students discovered how simple machines make work easier and realized their importance in daily life, from lifting heavy loads to moving objects efficiently. More importantly, the activity nurtured valuable life skills such as teamwork, patience, resilience, and innovative thinking.

SHAPING TOMORROW'S TRAILBLAZERS – PROFILE BUILDING FOR FUTURE LEADERS

Under the banner of the Future Leader Program, BCM School orchestrated a transformative Profile Building Session that went beyond checklists and certificates. It was a deep dive into how students can narrate their own success stories—with authenticity, purpose, and vision.

The session encouraged learners to reflect on their academic milestones, leadership journeys, passions, and community contributions, helping them connect the dots between what they do and who they aspire to be.

TINY TOTS ON A SHOPPING SPOT

Add a little bit of BCM School Chandigarh Road Foundational Stage Organizes **“Tiny Tots on a Shopping Spot”**
An engaging activity, “Tiny Tots on a Shopping Spot”, was organized at BCM School Chandigarh Road Foundational Stage under the guidance of Activities In-charge Ms. Bindu Sood. The classroom was beautifully transformed into a lively shopping mall where a wide variety of items were displayed. Children enthusiastically participated in role-play, learning the basics of purchasing and handling transactions. This hands-on experience not only gave them practical knowledge of shopping but also enhanced their communication skills, social interaction, and confidence in real-life situations. text

Thought of the day

“True patriotism is building a nation where justice, kindness and honesty are everyday habits.”

Health tip of the day

*“Start your day with a glass of water.”
Drinking water in the morning helps rehydrate your body, boosts energy, and kickstarts your metabolism.*

Book of the day

“The Magic of the Lost Temple” by Sudha Murty

This is a delightful children’s novel about Anoushka, a city girl who spends her summer vacation in her grandparents’ village. There, she discovers the joy of simple living, makes new friends, and stumbles upon an ancient stepwell with a mysterious past.

The book beautifully blends adventure, culture, and values, while teaching children about India’s heritage and the importance of curiosity.

RAKHI FOR SOLDIERS: A GESTURE OF GRATITUDE

Following **CBSE** guidelines, students of BCM School crafted vibrant rakhis and wrote heartfelt letters for the brave soldiers guarding our borders. Each rakhi symbolized sibling love, while every letter expressed gratitude, blessings, and prayers for their safety.

These creations were handed over to the Postal Department to be delivered to soldiers in distant regions, carrying with them a powerful message — that the nation stands united with its defenders, as family, as friends, and as proud citizens of India.
